THE RARE COIN MARKET

It seems that many people are wondering about the prospects for the near future of the rare coin market. Frankly, some have even expressed some doubts to us about the ability of the coin market to maintain some of the current high prices.

We feel that there has never been a better time to buy rare coins than right now. Here are some reasons why...

THE ECONOMY - -

We have been experiencing tremendous inflation in this country for the past year which has helped drive the market price of all coins up. In fact, coins have well out stripped actual inflation in terms of price increase. As usual, rare coins have out-performed speculative and bullion items by a substantial margin. From the looks of things, inflation will not only continue but will probably escalate. This will surely drive all coins (especially rare coins) to greater heights, and probably at an even faster rate than before.

SECURITY - -

We are recommending the purchase of diversified portfolios of rare coins. Do not put all of your money in silver coins or common date gold coins. Instead, try to put most of your investment into scarce and rare dates and choice condition pieces. These are not as easily effected by recessionary trends in the economy. We have never heard of anyone losing money on an investment of choice and rare U.S. coins held for a 5 year period or longer, REGARDLESS OF ECONOMIC TRENDS!

THE BICENTENNIAL - -

1976 will be a tremendous year for American Numismatics. We fore-see a great stirring of interest in all forms of U.S. coin collecting, not merely colonials. Every U.S. coin is in fact a fascinating piece of Americana. Additionally, the U.S. government will most certainly initiate additional interest in numismatics through such things as the issue of a bicentennial commemorative coin and probably a number of changes in actual circulation U.S. coinage.

PRECIOUS METALS - -

One can never be sure what will happen to the value of silver and gold bullion. Many experts predict dramatic rises in prices for both, and we tend to agree (not without some hesitation however). When precious metal rises in value, rare coins have always risen as well, and at a faster pace. When metals go down in price, rare coins do not tend to appreciate in value as fast, but they seldom if ever go down.

THE FACTORS OF THE 1965 COIN MARKET CRASH - -

We do not feel that this will ever happen to rare coins. Only speculative items such as common BU rolls and proof sets went down in 1965. Rare items that were not available in large enough quantities to be promoted did not go down in value as a rule, even in 1965.

Here at New England Rare Coin Galleries, we pride ourselves on offering coins of proven scarcity and value. We also offer our customers conservative grading and guaranteed authenticity. We do not recommend the purchase of coins of inferior quality at "bargain prices." Instead, we sell correctly described merchandise at realistic prices and deliver what we consider to be the best possible VALUE per dollar spent.

We want to make sure that no one ever goes wrong buying a coin from us, and our customers seem to feel we succeed. We know that if you order a coin from us, you'll agree.

Best regards,
Jim Halperin, John Struzan,
Chris Tracey & the rest of
the N.E.R.C.G. staff

UNSOLICITED TESTIMONIALS

"The grading of the coins I just received from you was all you said it would be. The 1836 Choice AU \$5 is particularly nice and is superior to some I have seen classified as BU."

G. H., Statesboro, Ga.

"I received the \$1.5's Large cent EF in the mail today and was very pleased with the coin. Your ads are correct when they say you grade coins fairly and correctly. It was unquestionably the nicest coin that I have ever purchased through the mail. You have made a new customer out of me."

R. H., Dyer, Ind.

"Thank you for the 1891 VF Seated Dime. The grading was perfect. It is a pleasure to find a company that gives such fast and excellent service to even a small collector with limited funds."

D.H., Grand Forks, N.Dak.

"Seldom, today, does an individual have the opportunity and distinct pleasure to deal with a business firm which considers customer satisfaction first and foremost. Because of the fair and courteous manner in which N.E.R.C.G. conducts its business transactions, you have made a new customer."

T.M., Va. Beach, Va.

"I recently purchased 5 Indians in R & B Unc and found the grading to be the best I have found through the mail. I still have faith in your company as being the best in 'Coin World'."

B.K., Woodbridge, Conn.

"This is my second order this month. I am quite pleased with the accuracy of your grading and your prompt service."

C.W., Staten Is., N.Y.

"I purchased two dimes from you at the A.N.A., and appreciate your fair grading."
J.S., Milwaukee, Wisc.

"I was most pleased with the 1880 Proof Gold Dollar ordered from you last August. It has become a much admired part of my collection and is most accurately described coin I have ever ordered by mail."

J.S., New York, N.Y.

"Your accurate grading and prompt service are very much appreciated. I have done a good deal of shopping around and N.E.R.C.G. is the only firm I continue to deal with. I plan to expand my orders. This is my first laudatory letter to a coin dealership and it is well deserved."

W.C., Charlotte, N.C.

"I received my 1925 Stone Mtn. commemorative half. It had no scratches and real nice toning. I showed it around and got some real nice comments on it. It is beautiful to me, you are well up on grading Ch. BU's."

L.C., Leckie, Va.

"It is a great pleasure to do business with you, and I look forward to further kind attention to my want list."

M.Z., Lyndhurst, N.J.

"I cannot thank you enough for the condition of my recent order. The coins were beautiful. Your fast service was an unexpected delight."

B.S., Memphis, Tenn.

"I enjoyed my last order from New England R.C.G., and hope to do business with you again soon. Thank you for your courtesy and cooperation."

C.F., Brunswick, Ga.

"This coin was excellent; the best struck 1927-S I've seen in 10 years!"

R.D., Rockford, Ill.

COLONIALS

Colonial coinage is just starting to receive the attention it has long deserved. Choice colonials are many times scarcer than most modern issues selling for \$500 - \$1000. An excellent opportunity to put away some nice colonial coinage. We doubt that a better investment can be made...

BUST DOLLARS

In this issue we offer one of our most extensive offerings of Bust Dollars for quite some time. From two really outstanding flowing hair types, to a nearly mintstate 1795 Small Eagle and a true gem 1799. A truly outstanding selection for the real numismatist...

Choice AU, many dealers would call BU, with mintstate pieces bringing in the \$20,000 + range, our Choice AU surely will be the highlight of any collection for only...	4500.00

1795 Small Eagle, EF. Beautiful original color with no defects, the exception rather than the rule on these early coins. It was an accepted practice then to file down a coin planchet to be within the required weight range, rather than remelt the planchet - thus saving time and expenses. The Bust dollars listed here, unless otherwise noted are essentially free of these file adjustment marks.

MORGAN DOLLARS

GRADING TERMS:

Like all of our coins, we try to grade conservatively. However, silver dollars, especially Morgan and Peace designs, seem to have more bagmarks than other coins. Thus, we have incorporated the mintstate grading system, using MS-60, MS-65 and MS-70 as a means of grading our dollars with even more accuracy. The definitions of the different mintstates are as follows:
MS-60 - Strictly uncirculated, full mint frost with the normal amount of bagmarks, and normal strikes for the date. (excessively bagmarked coins or horrible strikes will be noted separately.)
MS-65 - Choice BU, well struck pieces with minimum amount of bagmarks. Generally well above average coin. Comparable to coins some sell as MS-70!
MS-70 - True Gem Uncirculated, virtually perfect, fully struck coins with essentially no bagmarks. Many dates, in fact, simply do not exist in MS-70 although you see many dealers offer them as such.

 J-517 1866 Washington Nickel Obverse,
 with the regular coinage "No Rays"
 reverse adopted in 1867. Rarity 8, two
 or three pieces known. This specimen
 has a spectacular double struck reverse,
 with impressions from both strikes very
 bold! This is the first such error we
 have ever seen or heard of. An extremely
 rare piece as a pattern, this piece with
 the major error, undoubtedly unique. A

HOW TO PREPARE YOURSELF FOR THE COMING ECONOMIC CRISIS...

THE FORECAST

Many economic experts feel that we are about to enter a major recession accompanied by spiralling, whirlwind inflation. Perhaps this is a bit pessimistic. However, the near future promises to be a time of severe economic change, and a time of hardship for many who do not prepare for it.

THE EFFECTS

In the past year, the stock market has not only failed to keep up with inflation but has actually lost money for many of its investors. Conversely, gold has better than doubled in price, silver has risen dramatically in value, and rare U.S. coins in general have approximately tripled in value. We foresee this trend continuing for quite some time. Also there are selected areas of numismatics (rare coins) where many items have not been keeping pace with the rest of the coin market and with the increase in demand, and must thus be considered underpriced.

WHAT YOU CAN DO

We are strongly recommending the purchase of selected rare coins for investment, to be held for 3-5 years or longer. Our recommendations are based on over 20 years of experience in the numismatic field, experience which can only be gained by those in close contact with the coin market through active buying and selling on a full-time basis. (Such as we are)

WHO IS NEW ENGLAND RARE COIN GALLERIES?

We are the largest and most active rare coin dealership in New England. Our name is highly respected in the industry as a standard of conservative grading and the best possible quality and value. We are rare coin experts and we pride ourselves on our competence as advisors of grade, authenticity and value to collectors, investors and other dealers. The profits we have made for our investment clients since we have been in business are a matter of record, and have far outstripped the gains made by the coin market in general.

WHAT WE CAN DO FOR YOU

N.E.R.C.G. is now accepting a limited number of investment clients. We will assemble packages of rare coins in amounts from \$500 to \$25,000 or more. These will be coins of proven scarcity and value that we feel virtually certain will continue to appreciate in value, as they have in the past, at a rate far exceeding inflation, even in times like these. Each coin will be individually invoiced, and will be covered by our lifetime guarantee of authenticity as well as our assurance of quality and value.

As soon as we receive your order we will send you our questionnaire (or if you give us your phone number -- a member of our staff will call you.) We will require such information as the approximate time you will be holding your coins (NOTE: we do not recommend purchase of rare coins if they are going to be held for less than 3-5 years), and your personal priorities between financial growth and long-term security. In addition we will be happy to answer any questions you may have. Our investment packages are then tailor-made to your needs.

FURTHER GUARANTEE

After you receive your package of rare coins, you will have 10 days to inspect the coins, show them to other coin dealers or collectors, etc. If you are not convinced that you have received the best possible value for your investment dollar, we URGE you to return the coins to us. We're not worried about this guarantee, however, as we are firmly convinced that we offer the best value in numismatics today. Apparently our customers feel the same way about us, as our sales have better than tripled in the past year and show no signs of slowing down. Nevertheless, the guarantee is there and it is sincere.

NOW ...

Fill in the form and mail it in to us today. Every day you wait could cost you money!

New England Rare Coin Galleries is proud to offer
to the public, a unique opportunity
The Actual U.S. Mint
COIN DIES

used in the production of the 1968-S Proof Sets

THE DIES...

New England Rare Coin Galleries is proud to offer to you our few remaining coin dies, dies actually used in the minting of coinage for proof sets in 1968.

LOOKING BACK...

1968, a short five years ago, was an exciting year for numismatics. After a three year dry spell, it was announced that proof sets, sets of coins made expressly for collectors, would again be minted. But this year history was to be made with the announcement that the proof sets were to be minted, NOT at the traditional Philadelphia mint, but at the newly revitalized mint in San Francisco; and that they would bear the "S" mintmark!

HISTORY...

The first proof set ever issued from any branch mint, breaking the 110 year Philadelphia mint tradition; the first time U.S. proof sets were to bear any mintmarks... and the first, and LAST time in post-1900 numismatics that the actual historical dies were allowed out of the mint!

COLLECTOR INTEREST...

These dies are fascinating pieces of numismatic history, and because they have been defaced at the mint before their release, they are completely legal to own. Although the dies have been defaced, many still retain partial effigys of familiar faces and mottos still in use on our coinage today.

Each die has been individually serial marked at the mint, in addition, each has the "P" stamped into it indicating use in making proof coinage, and the letter "S" incused into each die to indicate its use in the San Francisco mint.

NEVER AGAIN...

New England Rare Coin Galleries is the only firm from whom you can now purchase these dies. Once our supply is exhausted, there will be no more (the government now has stringent controls to see that no more coin dies leave the mint), no more will ever be released, not next year...not ever!

These dies are both unique and fascinating; unique as representatives of the first year of operation of the San Francisco mint since 1955; fascinating to all numismatists, or anyone for that matter! A tremendous opportunity to obtain a wonderful conversation piece as well as a welcomed addition to any educational display. The laws of rising demand and absolutely limited supply make these a wonderful potential investment item.

UNIQUE OFFERING...

Our supply is limited, but while we still have a few available we make the following offering:

PRICE: \$29.00 per coin die*
 \$225.00 per complete ten die set. Sets of ten dies include one reverse and one obverse die of each denomination minted (cent, nickel, dime, quarter and half)

*On individual coin die orders, you may specify preferred denomination (except half dollar). Even though denomination is of our choice, we will do our utmost to see you get your preference. Half Dollar coin dies are available at \$45.00 each.

At this time, we must limit orders to no more than five (5) dies or sets per customer, dealer or investor.

To make this offer even more irresistible, we shall include free of charge a 1968-S proof set with each order, two proof sets with each order for a ten die set.

This may very well be our final offering of these unique dies, our offer is unique, as is the opportunity for you to participate in this offering. We urge you to send your order now, while these dies are still available; as is your chance to participate in acquiring a true piece of numismatic history.

MONEY -BACK GUARANTEE

If, for any reason you are not satisfied, you may return the dies within 10 days for a full instant refund.
